SUMMARY

Computer Science and Engineering student at VIT University, interested in solving intricate problems with creative solutions. Strong theoretical background in data structures, algorithms, and software development, along with practical experience in developing full-stack web applications. Enthusiastic to work on cutting-edge projects, using technical knowledge and a positive attitude to deliver meaningful results.

EDUCATION

Vellore Institute of Technology

BTECH Computer Science *GPA: 8.88*

Sep 2022 - Present

Kendriya Vidyalaya

12th (10+2) PCMCs *Percentage: 96%*

Apr 2020 - Jul 2021

Kendriya Vidyalaya

10th *Percentage: 96.4%*

April 2018 - May 2019

EXPERIENCE

Freelance

Developer / Tech Consultant

- Full stack development
- Technology Evaluation and Selection
- Project Planning & Management

PROJECTS

College Website and LMS *NextJs, Supabase, TypeScript, Tailwind*

Developed and deployed a secure, custom role-based web portal with RBAC, enabling students, teachers, and administrators to manage payments, attendance, class materials, library and user records.

VITLAA, VIT Chennai *ReactJs, HTML, SCSS*

<https://vitlaa.vercel.app/>

Developed a responsive event website for a Linear Algebra workshop.

LegalAI AWS *Comprehend, Translate, Polly, Hugging Face API*

<https://legalaiaws.netlify.app/>

Implemented automated legal document processing using AWS SDKs and Hugging Face API.

Rescue and Reconnaissance Bot *YOLOv5, ESP32 Cam, Supabase, Vonage API*

<https://github.com/abhii2003/RRBOT>

Developed a survivor detection bot with YOLOv5 and ESP32 Cam, integrating GPS with real-time data storage on Supabase(a relational database) upon survivor detection with a notification alert using VonageAPI.

EXTRACURRICULAR

GDSC - VITC

Core Team - Web Developer

- Contributed to the development of the hackathon website (DevsHouse 2024) at VITC.
- Upgraded the official GDSC VITC website from Next.js version 12 to 13, implementing app-based routing for better performance and scalability.

SKILLS AND TOOLS

Programming Languages:	Python, C++, Java, C
Front-End:	HTML, CSS, SCSS, Javascript, ReactJs, NextJs, Tailwind CSS
Backend:	SQL, Supabase, Nodejs, PostgreSQL, NextJs, Relational Database
Other:	Data Structures, Algorithms, OOPS, DBMS, Git, Github, Digital Ocean, Problem Solving
