EXPERIENCE

PotatoHead Media Works

Full-Stack Developer (2024 - 2025)

- Engineered scalable, high-performance web platforms by collaborating with design teams to translate creative briefs into robust technical solutions using Next.js.
- Managed end-to-end CI/CD deployment pipelines and optimized post-launch performance, resulting in improved load times and reduced maintenance overhead.

Freelance Developer / Tech Consultant

Independent (2022 - Present)

- Led end-to-end project builds for startups, handling client consultation, technical architecture, and deployment of tailored applications from MVP (Minimum Viable Product) to full release.
- Provided strategic guidance on technology stack choices to ensure solutions were scalable, future-proof, and cost-efficient.

PROJECTS

FI Group of Institutions LMS Portal

 Live Demo

- Architected a secure LMS with granular role-based access, course/fee management, a help ticket system, and integrated Google APIs, all deployed via an automated CI/CD pipeline.
- Tech Stack:** Next.js, Prisma, PostgreSQL, NextAuth.js, MinIO, Nginx, PM2, DigitalOcean, GitHub Actions.

Daycare Management App

 Live Demo

- Developed a modern system to streamline daycare operations, featuring secure check-in/out, parent messaging, real-time activity tracking, and administrative dashboards.
- Tech Stack:** Next.js, React.js, Prisma, Supabase (PostgreSQL).

Rescue and Reconnaissance Bot (RRBot)

 GitHub Repo

- Built a disaster-survivor bot that uses real-time image processing for human detection, GPS tracking, and automated emergency SMS alerts, integrated with a custom robotic car.
- Tech Stack:** Python, YOLOv5, ESP32-CAM, Supabase, Vonage SMS API.

EXTRACURRICULAR ACTIVITIES

GDSC - VITC

Core Team - Web Developer (2022 - 2025)

- Upgraded the official GDSC VITC site to Next.js 13 for enhanced performance and developed for the DevsHouse 2024 hackathon website.

SKILLS AND TOOLS

- Languages:** Python, C++, Java, JavaScript, TypeScript, SQL
- Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js, Tailwind CSS, shaden/ui
- Databases & ORMs:** PostgreSQL, MySQL, OracleSQL, Prisma ORM
- DevOps & Tools:** Git, GitHub, GitLab, GitHub Actions (CI/CD Pipeline), Docker, Nginx, PM2, DigitalOcean, MinIO (S3)
- Core Concepts:** Data Structures, Algorithms, OOP, DBMS, API Design, System Design, Server Maintenance, AWS, SAAS
